

# PROMETHIUM

Accelerate Backlogs for Analytics Projects from 4 months to 3 minutes per project.

## ASK A QUESTION. GET AN ANSWER IN 3 MINUTES. ON TOP OF THAT, HERE'S 9 THINGS YOU DON'T NEED TO WORRY ABOUT WITH PROMETHIUM

01

No need to change your current BI and data visualization tool

02

No need to change your data warehouse or data lake

03

No need to migrate / move your data

04

No need to write or run ETL/ELT

05

No SQL programming required

06

No need to buy additional hardware

07

No need for months of "training" data or system before using product.

08

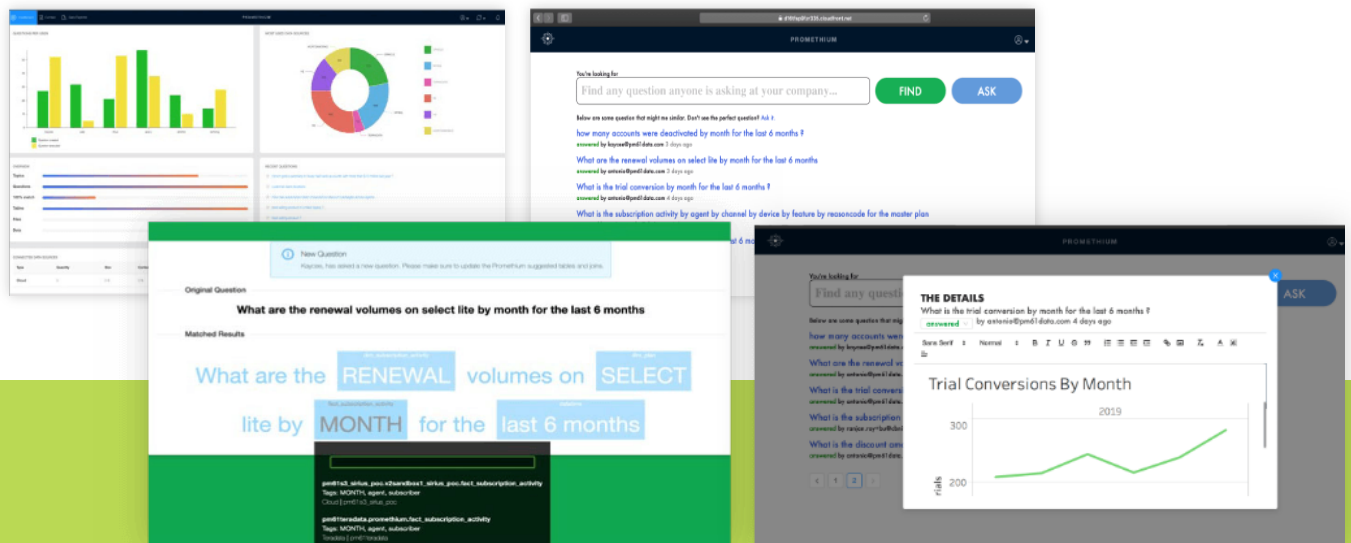

No need to have 100% clean & curated datasets before using Promethium

09

No need to have an already populated data catalog

DISCOVER, VALIDATE AND ASSEMBLE DATA FROM ALL YOUR DATA SOURCES IN MINUTES
